BACHELOR IN COMPUTER SCIENCE

FAST-NU

2019- 2023

EXPERIENCE/PROJECTS

DRAFTING APPLICATION

REACT JS

- Drafting web application was made using REACT JS which allows cricket captains to choose from pool of players for their team.
- Categories were made and players were distributed in it.
- Each captain will pick player on his turn and make his cricket team
- Team will be displayed in the end.

GET THE BOOK

ANGULAR

- If logged in as user, one can see the books in the store and reserve them for himself.
- If logged in as an admin, he/she will have full control; like he can change user to admin, manager, or vice versa.
- Manager will manage the store; adding books, removing them, etc.

VIBE ZONE

REACT JS

- A web application which lets one play music.
- One can make his/her playlist and share with others.
- One can rate playlist made by others or vice versa.
- An application will recommend playlist by analyzing history.
